1 Introduction

1.1 Welcome to SmartGro ERP

SmartGro ERP is a comprehensive, cloud-based Enterprise Resource Planning system designed specifically for retail and grocery businesses. Built with modern technology and user experience in mind, SmartGro helps you manage your entire business operations seamlessly.

1.2 System Overview

SmartGro ERP provides an all-in-one solution for:

- **Point of Sale (POS)** - Fast, efficient checkout process
- **Inventory Management** - Real-time stock tracking and alerts
- **Customer Management** - Track customer history and preferences
- **Financial Management** - Expenses, cash flow, and reporting
- **Analytics & Reporting** - Data-driven business insights
- **Supplier Management** - Purchase orders and supplier tracking
- **Employee Management** - Staff roles and permissions

1.3 System Requirements

Before using SmartGro ERP, ensure you have:

- Modern web browser (Chrome, Firefox, Safari, or Edge)
- Stable internet connection
- SmartGro login credentials provided by administrator
- **Optional:** Barcode scanner for POS operations
- **Optional:** Receipt printer

1.4 Key Features at a Glance

Feature	Description
POS System	Fast checkout with barcode scanning, discounts, and multiple payment methods
Inventory	Real-time stock levels, low stock alerts, and inventory adjustments
Customers	Customer profiles, purchase history, and loyalty tracking
Analytics	Sales reports, profit analysis, and anomaly detection
AI Recommendations	Smart product recommendations based on purchase patterns
Financial	Expense tracking, cash register management, and financial reporting

Table 1: SmartGro ERP Key Features

2 Getting Started

2.1 Login to SmartGro

1. Open your web browser and navigate to your SmartGro ERP URL
2. You will see the login screen as shown in Figure 1
3. Enter your **Username** (provided by administrator)
4. Enter your **Password**
5. Click the **Login** button

The image shows a login screen for SmartGro ERP. It features a title 'SmartGro ERP Login Screen' in bold. Below the title are two input fields: 'Username: _____' and 'Password: _____'. At the bottom center is a rectangular button labeled '[LOGIN]'.

Figure 1: SmartGro ERP Login Screen

2.2 User Roles and Permissions

SmartGro ERP uses a role-based access control system. The system supports four main roles:

Role	Permissions
Owner	Full system access, all reports, user management, settings
Manager	All features except user management and system settings
Cashier	POS operations, customer management, basic reports
Viewer	Read-only access to reports and data

Table 2: User Roles and Permissions

2.3 Password Reset

If you forget your password:

1. Click on **”Forgot Password?”** link on login page
2. Enter your registered email address
3. Check your email for password reset link
4. Follow the link to create a new password

2.4 First Time Setup

For first-time users (Owners/Managers):

1. **Add Products:** Navigate to Inventory → Add Product
2. **Add Customers:** Navigate to Customers → Add Customer
3. **Set Up Staff:** Navigate to Settings → User Management
4. **Configure Payments:** Set up payment methods (Cash, Card, Mobile Money, etc.)
5. **Start Selling:** Begin using the POS system

3 Navigation Guide

3.1 Main Navigation Menu

After logging in, you'll see the main navigation sidebar as shown in Figure 2.

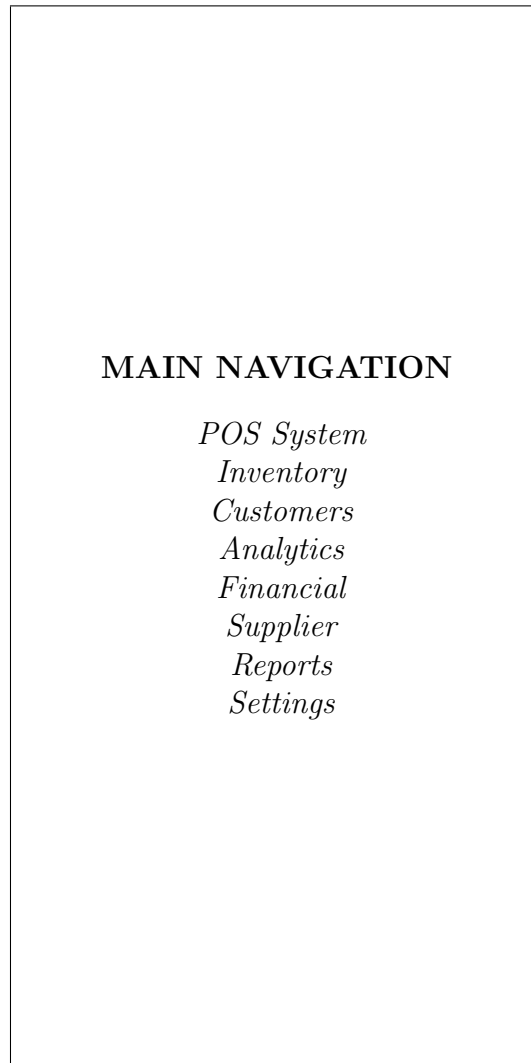

Figure 2: Main Navigation Sidebar

3.2 Navigation Sections

3.2.1 1. POS System

The Point of Sale system is the heart of SmartGro. Access it from the sidebar to:

- Process customer transactions
- Scan barcodes or search products
- Apply discounts and promotions
- Accept multiple payment types
- Print receipts

- Handle returns and exchanges

3.2.2 2. Inventory Management

Manage your product catalog:

- **Add Product:** Create new product entries with barcode, price, cost, and stock
- **Product List:** View and manage all products
- **Stock Adjustments:** Update inventory levels
- **Low Stock Alerts:** Monitor products running low
- **Categories:** Organize products into categories

3.2.3 3. Customer Management

Build customer relationships:

- **Customer Database:** View all customers
- **Add Customer:** Create new customer profiles
- **Purchase History:** View customer buying patterns
- **Customer Analytics:** Identify top customers

3.2.4 4. Analytics & Reporting

Make data-driven decisions:

- **Sales Dashboard:** Real-time sales metrics
- **Product Performance:** Best and worst selling items
- **Anomaly Detection:** Identify unusual patterns
- **Recommendation Engine:** AI-powered suggestions
- **Customer Insights:** Understand customer behavior

3.2.5 5. Financial Management

Track your finances:

- **Expenses:** Record and categorize expenses
- **Cash Register:** Manage cash drawer operations
- **Profit Analysis:** Track profitability
- **Financial Reports:** Comprehensive financial statements

3.2.6 6. Supplier Management

Manage your supply chain:

- **Supplier Database:** Store supplier information
- **Purchase Orders:** Create and track orders
- **Order History:** View past purchases

3.2.7 7. Reports

Generate detailed reports:

- **Sales Reports:** Daily, weekly, monthly sales
- **Inventory Reports:** Stock levels and valuation
- **Financial Reports:** Profit and loss statements
- **Customer Reports:** Customer activity summaries

3.2.8 8. Settings

Configure your system:

- **User Management:** Add/remove users, manage roles
- **Company Settings:** Business details and preferences
- **Payment Methods:** Configure payment options
- **Backup:** Data backup and restore
- **System Preferences:** Customize system behavior

4 Point of Sale (POS) System

4.1 Overview

The POS system is designed for fast, efficient checkout. It supports barcode scanning, product search, discounts, and multiple payment methods.

4.2 Accessing the POS

1. Click **POS System** in the sidebar
2. The POS interface will load as shown in Figure 3
3. You're now ready to start processing sales

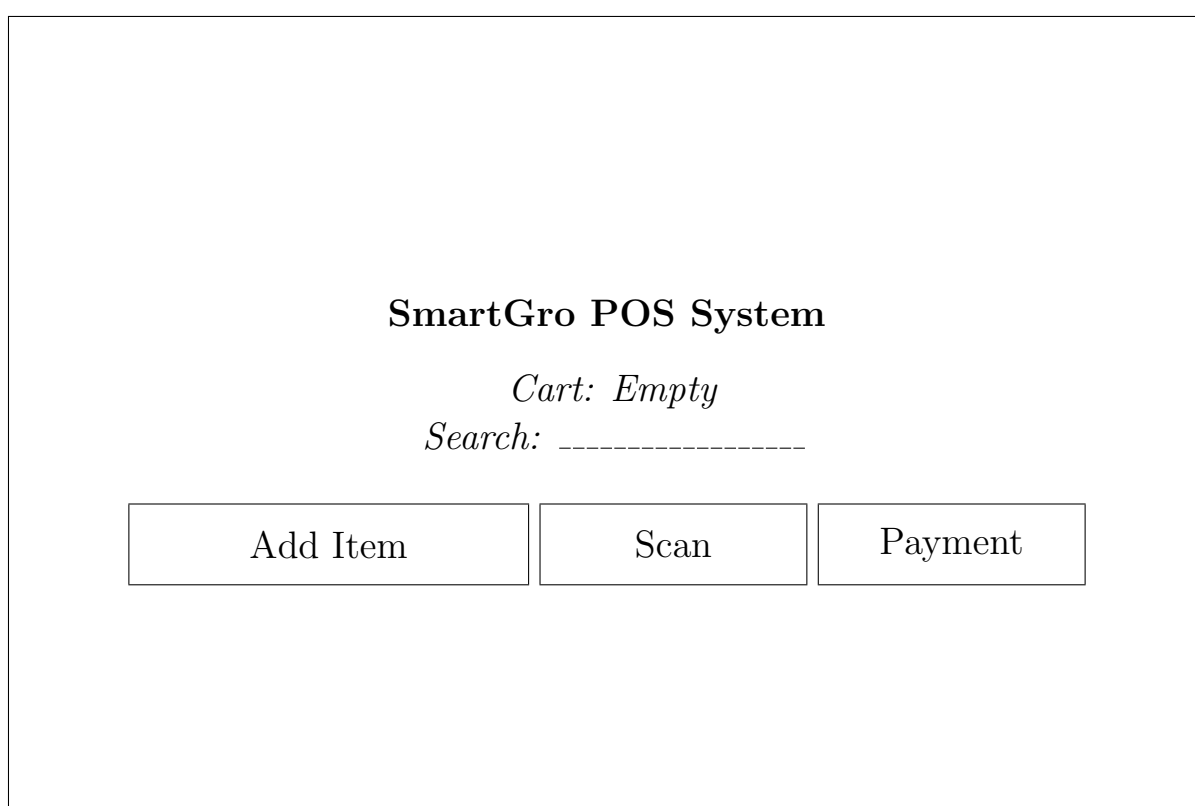

Figure 3: POS System Interface

4.3 Processing a Sale

4.3.1 Step 1: Add Items to Cart

There are three ways to add items:

1. **Barcode Scanning:**
 - Connect a barcode scanner to your computer
 - Scan the product barcode

- Item is automatically added to cart

2. Product Search:

- Type product name in search bar
- Select product from dropdown
- Click **Add Item** or press Enter

3. Manual Entry:

- Click **Add Item**
- Search or enter product details
- Enter quantity
- Click **Add to Cart**

4.3.2 Step 2: Manage Cart Items

Once items are in the cart:

- **Update Quantity:** Click on quantity field and enter new number
- **Remove Item:** Click the trash icon next to item
- **Clear Cart:** Click **Clear Cart** to start over
- **Add Discount:** Enter discount amount or percentage
- **Apply Promotions:** Select applicable promotions

4.3.3 Step 3: Process Payment

1. Click **Payment** button
2. Select payment method:
 - Cash
 - Credit/Debit Card
 - Mobile Money (M-Pesa, etc.)
 - Gift Card
 - Mixed Payment
3. Enter amount received (for cash payments)
4. System calculates change
5. Click **Complete Transaction**
6. Receipt is generated and printed (if printer is connected)

4.4 Returns and Exchanges

To process a return:

1. Click **Returns** button in POS
2. Search for original transaction using receipt number
3. Select items to return
4. Choose return reason
5. Process refund (cash, card, or store credit)
6. Click **Complete Return**

4.5 Void Transactions

To void a transaction:

1. Click **Void Transaction**
2. Enter the receipt number
3. Confirm void reason
4. Click **Void**
5. Authorization may be required (Manager/Owner)

4.6 Quick Tips for POS

- Use barcode scanner for fast checkout
- Use keyboard shortcuts (where available)
- Always verify payment before completing transaction
- Check for promotions and discounts before finalizing
- Keep the cash drawer secure

5 Inventory Management

5.1 Overview

The Inventory Management module helps you track stock levels, manage products, and avoid stockouts.

5.2 Adding Products

5.2.1 Step 1: Access Add Product Screen

1. Navigate to **Inventory** in sidebar
2. Click **Add Product**
3. Fill in product details

5.2.2 Step 2: Enter Product Information

Field	Description
Product Name	Full product name (required)
Barcode	Product barcode or SKU (optional but recommended)
Category	Product category (create new if needed)
Price	Selling price (required)
Cost	Purchase cost price
Stock	Current stock quantity
Minimum Stock	Low stock alert threshold
Supplier	Product supplier
Description	Additional product details

Table 3: Product Information Fields

5.2.3 Step 3: Save Product

1. Review all information
2. Click **Save Product**
3. Product is now available in inventory and POS

5.3 Managing Products

5.3.1 View Products

1. Navigate to **Inventory**
2. Click **Product List**
3. View all products in table format
4. Use search to find specific products
5. Use filters to narrow results

5.3.2 Edit Products

1. From Product List, click edit icon next to product
2. Update any fields
3. Click **Update Product**

5.3.3 Delete Products

1. From Product List, click delete icon
2. Confirm deletion
3. **Note:** Products with sales history may not be deleted

5.4 Stock Adjustments

5.4.1 Manual Stock Adjustments

1. Navigate to **Inventory** → **Stock Adjustments**
2. Click **New Adjustment**
3. Select product
4. Enter adjustment reason (e.g., Damaged, Returned, Expired)
5. Enter quantity change
6. Click **Save Adjustment**

5.4.2 Low Stock Alerts

The system automatically alerts you when stock falls below the minimum threshold:

- Low stock items appear in dashboard widgets
- Alert notifications appear on the system
- You can set custom alert thresholds per product

5.5 Inventory Reports

Generate inventory reports:

1. Navigate to **Inventory** → **Reports**
2. Select report type:
 - **Stock Level Report:** Current inventory levels
 - **Inventory Valuation:** Value of all stock
 - **Stock Movement:** Items in/out over time
 - **Slow Movers:** Products with low sales

3. Set date range
4. Click **Generate**
5. Export to CSV or PDF if needed

6 Customer Management

6.1 Overview

The Customer Management module helps you build and maintain customer relationships by tracking purchase history and preferences.

6.2 Adding Customers

6.2.1 Step 1: Access Add Customer Screen

1. Navigate to **Customers** in sidebar
2. Click **Add Customer**

6.2.2 Step 2: Enter Customer Information

Field	Description
Customer Name	Full name (required)
Phone	Contact phone number
Email	Email address
Address	Physical address
Loyalty ID	Unique loyalty identifier
Notes	Additional customer notes

Table 4: Customer Information Fields

6.2.3 Step 3: Save Customer

1. Review all information
2. Click **Save Customer**
3. Customer is now in the database

6.3 Managing Customers

6.3.1 View Customers

1. Navigate to **Customers**
2. View all customers in table
3. Search by name, phone, or email
4. Click on customer to view details

6.3.2 Customer Details

When viewing a customer, you can see:

- Basic customer information
- Purchase history
- Total spent
- Last purchase date
- Number of transactions
- Customer notes

6.4 Customer Analytics

Access customer insights:

1. Navigate to **Customers** → **Analytics**
2. View metrics:
 - **Top Customers:** Highest spending customers
 - **Frequent Buyers:** Most frequent customers
 - **Customer Retention:** Repeat purchase rate
 - **Customer Lifetime Value:** Total customer value
3. Filter by date range
4. Export reports as needed

6.5 Customer Loyalty

SmartGro supports loyalty programs:

1. Assign loyalty IDs to customers
2. Track loyalty points
3. Redeem points for discounts
4. View loyalty history

7 Financial Management

7.1 Overview

The Financial Management module helps you track expenses, manage cash flow, and monitor business profitability.

7.2 Expense Tracking

7.2.1 Add Expenses

1. Navigate to **Financial** → **Expenses**
2. Click **Add Expense**
3. Enter expense details:
 - Date
 - Amount
 - Category (e.g., Utilities, Rent, Salaries)
 - Description
 - Payment Method
 - Receipt/Reference Number
4. Click **Save Expense**

7.2.2 Expense Categories

Common expense categories include:

- Rent/Mortgage
- Utilities (Electricity, Water, Internet)
- Salaries and Wages
- Inventory Purchases
- Marketing and Advertising
- Equipment and Maintenance
- Transportation
- Insurance
- Taxes
- Miscellaneous

7.3 Cash Register Management

7.3.1 Cash Transactions

1. Navigate to **Financial** → **Cash Register**
2. View all cash transactions
3. Track opening and closing balances
4. Record cash deposits and withdrawals
5. Monitor cash flow

7.3.2 Cash Reconciliation

1. At end of day, click **Reconcile Cash**
2. Enter starting cash amount
3. Enter expected cash (from POS sales)
4. Enter actual cash counted
5. System calculates variance
6. Record reconciliation

7.4 Financial Reports

Generate financial reports:

1. Navigate to **Financial** → **Reports**
2. Select report type:
 - **Profit & Loss Statement**
 - **Cash Flow Statement**
 - **Expense Summary**
 - **Income Statement**
 - **Balance Sheet**
3. Set date range
4. Click **Generate**
5. Export to CSV, Excel, or PDF

7.5 Profit Analysis

Access profit analysis:

1. Navigate to **Financial** → **Profit Analysis**
2. View key metrics:
 - Gross Profit
 - Net Profit
 - Profit Margin
 - Cost of Goods Sold (COGS)
 - Operating Expenses
 - Revenue vs Expenses Chart
3. Compare time periods
4. Identify trends

8 Analytics & Reports

8.1 Overview

The Analytics module provides powerful insights into your business performance through interactive dashboards and detailed reports.

8.2 Analytics Dashboard

8.2.1 Access Dashboard

1. Navigate to **Analytics** in sidebar
2. View real-time metrics:
 - Daily Sales
 - Weekly Sales Trend
 - Top Products
 - Customer Count
 - Average Transaction Value
3. Filter by date range
4. Interactive charts and graphs

8.3 Anomaly Detection

8.3.1 Overview

The Anomaly Detection system uses AI to identify unusual patterns in your business data:

1. Navigate to **Analytics** → **Anomaly Detection**
2. Click **Run Detection**
3. System analyzes:
 - Sales spikes and drops
 - Inventory anomalies
 - Price anomalies
 - Financial irregularities
 - Customer behavior changes
4. Review detected anomalies
5. Export anomaly reports

8.3.2 Anomaly Types

The system detects several types of anomalies:

Type	Description
Sales Spike	Unusually high sales on a particular day
Sales Drop	Significant decrease in sales
Large Transaction	Individual transaction much larger than average
Negative Stock	Inventory showing negative quantities
Negative Margin	Products selling below cost
High Expenses	Unusually high expenses
Negative Cash	Cash transactions showing negative amounts

Table 5: Anomaly Types

8.4 Recommendation Engine

The AI-powered recommendation engine suggests products based on purchase patterns:

8.4.1 Access Recommendations

1. Navigate to **Analytics** → **Recommendation Engine**
2. Build association rules (first time only)
3. Access recommendation types:
 - **Product Lookup:** Recommendations for specific products
 - **Customer Recommendations:** Personalized suggestions
 - **Bundle Builder:** Product bundle suggestions
4. View recommendation scores
5. Export recommendations

8.5 Reports Generation

8.5.1 Sales Reports

1. Navigate to **Reports** → **Sales Reports**
2. Select report type:
 - Daily Sales Summary
 - Weekly Sales Summary
 - Monthly Sales Report
 - Product Performance
 - Category Performance
3. Set date range

4. Click **Generate**
5. View, print, or export

8.5.2 Inventory Reports

1. Navigate to **Reports** → **Inventory Reports**
2. Select report type:
 - Stock Level Report
 - Inventory Valuation
 - Stock Movement
 - Low Stock Report
 - Slow Moving Items
3. Set parameters
4. Click **Generate**
5. Export as needed

8.5.3 Financial Reports

1. Navigate to **Reports** → **Financial Reports**
2. Select report type:
 - Income Statement
 - Expense Report
 - Cash Flow Statement
 - Profit/Loss Statement
3. Set date range
4. Click **Generate**
5. Export or print

9 System Administration

9.1 User Management

9.1.1 Add New Users

1. Navigate to **Settings** → **User Management**
2. Click **Add User**
3. Enter user details:
 - Full Name
 - Username
 - Email
 - Password
 - Role (Owner, Manager, Cashier, Viewer)
4. Click **Save User**

9.1.2 Manage Users

1. View all users in table
2. Edit user details by clicking edit icon
3. Disable or enable user accounts
4. Reset passwords when needed
5. Delete users (Owner only)

9.2 Company Settings

9.2.1 Configure Company Details

1. Navigate to **Settings** → **Company Settings**
2. Enter company information:
 - Company Name
 - Address
 - Phone
 - Email
 - Tax ID
 - Currency
 - Time Zone
3. Click **Save Settings**

9.2.2 Receipt Settings

1. Configure receipt format
2. Add store logo
3. Add footer message
4. Set receipt paper size
5. Enable/disable automatic printing

9.3 Payment Methods

Configure accepted payment methods:

1. Navigate to **Settings** → **Payment Methods**
2. Enable/disable payment types:
 - Cash
 - Credit Card
 - Debit Card
 - Mobile Money (M-Pesa, EcoCash, etc.)
 - Gift Card
 - Store Credit
3. Configure payment settings
4. Set default payment method

9.4 Data Management

9.4.1 Backup Data

1. Navigate to **Settings** → **Backup**
2. Click **Create Backup**
3. System generates backup file
4. Download backup file
5. Store securely

9.4.2 Restore Data

1. Navigate to **Settings** → **Backup**
2. Click **Restore**
3. Upload backup file
4. Confirm restoration
5. System restores data

9.4.3 Audit Log

1. Navigate to **Settings** → **Audit Log**
2. View all system activities
3. Filter by user, date, or action
4. Export audit log
5. Monitor system usage

10 Troubleshooting Guide

10.1 Common Issues and Solutions

Issue	Solution
Can't login	Check username/password, reset password if needed
POS not loading	Refresh browser, clear cache, check internet connection
Barcode scanner not working	Check USB connection, ensure scanner is in correct mode
Printer not printing	Check connection, verify printer is online, check paper
Slow system performance	Close unused tabs, check internet speed, restart browser
Stock not updating	Refresh page, check for system updates
Reports not loading	Clear browser cache, try different browser

Table 6: Common Issues and Solutions

10.2 Error Messages

10.2.1 Login Errors

- **"Invalid username or password"**: Check credentials, reset password
- **"Account locked"**: Contact administrator
- **"Access denied"**: Insufficient permissions

10.2.2 System Errors

- **"Connection error"**: Check internet connection
- **"Server timeout"**: Refresh page, try again later
- **"Database error"**: Contact support

10.3 System Requirements

10.3.1 Minimum Requirements

- Windows 10, macOS, or Linux
- Chrome/Firefox/Safari latest version
- Internet speed: 5 Mbps minimum
- RAM: 4GB recommended

10.4 Getting Help

10.4.1 Support Channels

- **Email Support:** support@smartgro.com
- **Phone Support:** +263 123 456 789
- **Knowledge Base:** docs.smartgro.com
- **Community Forum:** community.smartgro.com

10.4.2 Before Contacting Support

1. Check internet connection
2. Restart browser
3. Clear browser cache
4. Note the error message
5. Capture screenshot if possible
6. Provide steps to reproduce

11 Best Practices

11.1 Daily Operations

- Open cash register at start of day
- Verify starting cash amount
- Process sales efficiently
- Close cash register at end of day
- Reconcile cash with POS reports
- Review daily sales summary

11.2 Inventory Management

- Perform regular stock counts
- Monitor low stock alerts
- Review slow-moving products
- Update product prices regularly
- Categorize products properly
- Maintain accurate stock records

11.3 Customer Service

- Add new customers to system
- Track customer purchase history
- Identify top customers
- Provide personalized recommendations
- Handle returns professionally
- Build customer loyalty

11.4 Financial Management

- Record all expenses promptly
- Reconcile cash daily
- Review profit margins
- Track financial performance
- Generate regular financial reports
- Plan for taxes

11.5 Data Security

- Use strong passwords
- Change passwords regularly
- Limit user access based on role
- Perform regular backups
- Keep system updated
- Log out when finished

12 Keyboard Shortcuts

12.1 POS Shortcuts

Shortcut	Action
Enter	Add selected item to cart
Delete	Remove selected item
F1	Open help
F2	Quick search
F3	Apply discount
F4	Open payment screen
F5	Refresh
Esc	Cancel current action

Table 7: POS Keyboard Shortcuts

12.2 Navigation Shortcuts

Shortcut	Action
Ctrl + N	New transaction
Ctrl + S	Save current item
Ctrl + F	Search
Ctrl + P	Print
Ctrl + Z	Undo last action
Alt + 1-9	Quick navigation to tabs

Table 8: Navigation Keyboard Shortcuts

13 Glossary

Term	Definition
COGS	Cost of Goods Sold - Direct costs of producing goods sold
ERP	Enterprise Resource Planning - Integrated management system
Margin	Difference between cost and selling price
POS	Point of Sale - System for processing transactions
ROI	Return on Investment - Measure of profitability
SKU	Stock Keeping Unit - Unique product identifier
Void	Cancel a transaction
Reconciliation	Matching expected vs actual cash
Anomaly	Unusual or unexpected pattern
Association Rule	Pattern in customer purchase behavior

Table 9: Glossary of Terms

14 Conclusion

Thank you for choosing **SmartGro ERP System**! We're confident that this system will help you manage your business more efficiently and make better data-driven decisions.

14.1 Getting the Most from SmartGro

- **Explore All Features:** Take time to explore every module
- **Use Analytics:** Leverage data insights for growth
- **Train Your Team:** Ensure all users understand the system
- **Stay Updated:** Watch for new features and updates
- **Provide Feedback:** Help us improve the system

14.2 Feedback and Suggestions

We value your feedback! If you have suggestions for improvement, please:

- Submit feedback through the system
- Email us at: feedback@smartgro.com
- Participate in our community forum

14.3 Version History

Version	Date	Changes
2.0	July 2026	AI Recommendations, Anomaly Detection
1.5	March 2026	Advanced Reports, Customer Management
1.0	January 2026	Initial Release - POS, Inventory, Financials

Table 10: Version History

14.4 System Status

The SmartGro ERP system is actively maintained and updated. For system status updates, visit our status page or follow us on social media.

14.5 Thank You
